---

Data collection

## Definition of Mother health passport

It is a document for the mother from the beginning of her pregnancy to six weeks after birth, and the Baby from his birth until he reaches twenty-eight days

# Objective

01

Reduce infant mortality

02

Ensure good health of mother and infant during pregnancy and delivery.

03

Monitor the health of both mother and child.

04

Improve quality of health care and awareness.

# Passport Uses

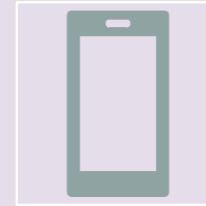

---

A HEALTH EDUCATION  
DOCUMENT

A TOOL FOR THE REFERRAL  
SYSTEM BETWEEN HEALTH  
SERVICE LEVELS.

A MOBILE RECORD BETWEEN  
THE BENEFICIARY AND THE  
HEALTH SERVICE PROVIDER
